Tips for making the healthy choice, the easy choice!

- © Keep a jug of chilled water in the refrigerator
 - especially in the summer!
- © To help your child drink less sugar,
 - Buy smaller sizes of sugary drinks.
 - Pour smaller servings.
- © Serve drinks from the "Choose Most" list below more often.

The Sip Smart! BC™ Program teaches children in Grades 4-6 about sugary drinks!

Why is Sip Smart! BC™ important to you and your children?

- © Sugary drinks are everywhere. Fruit juice, pop, fruit "punch", sport drinks and many other drinks have high amounts of sugar. Too much sugar is not good for your child's health.

- © The extra calories in sugary drinks can add up quickly. This can lead to an unhealthy weight, putting your child at higher risk of high blood pressure, heart disease and type 2 diabetes.

- © Healthy foods and drinks build a body that is just right for your child.

- Healthy children learn better.
- Healthy children perform better at school and socially.
- Healthy children have more energy to be physically active.

Healthy drink choices will help build and maintain a healthy body today, and build a strong body that is fit for a lifetime. Help your child to **Sip Smart!**

water is always a great choice!
